Slimbrick®, Mutual Used

At Mutual Materials, we are proud of what we do and are inspired to see our products chosen by professionals to build communities. Our products build beauty that lasts through hospitals, schools, stadiums, businesses, family homes, public parks, and backyards. Mutual Materials has long served a professional network of architects, interior designers, builders, masons, and landscape design professionals. Today we also serve residential homeowners, both through our professional networks and through our retail branch locations.

A Message from our President

Kendall Anderegg
President, Mutual Materials

The story of Mutual Materials began over 120 years ago with an innovative brick mason from California who came to Seattle to join the rebuilding effort after The Great Seattle Fire of 1889. Since then, we have grown into the largest family-owned masonry and hardscape products manufacturer in the Pacific Northwest. We are proud of the contribution our company and products have made in building the communities we live in, from our local sports stadiums and neighborhood schools to homes, and beautifully landscaped backyards. Our mission of building beauty that lasts means that the products and materials we use to build schools, stadiums, commercial buildings, and family homes and gardens will last for future generations to enjoy.

Our commitment to our customers has not changed as we have grown and expanded over the years. Right Product, Right Place, Right Time – getting you what you want, where you want and when you want it – is the promise that Mutual Materials’ entire team is dedicated to meeting every day.

On behalf of all of us at Mutual Materials, I want to thank you for continuing to consider making our products part of your homes and communities. We know that our customers are the reason we are in business and whether you shop online at one of our branches, we appreciate you.

Sincerely,

Kendall Anderegg
President, Mutual Materials

PROJECT WORKSHEETS

PAVING STONE PROJECT

STEP A: Find total square footage

1. Make a drawing of your project (to 1 inch scale if possible).
2. Choose your stone shape and color.
3. Find the total square footage of your project using Step B below.
4. Locate your stone square footage on the product price label.

STEP B: Formula to determine stones for the project

1. Multiply the length by the width to get the total square footage of the project.

_____ Length in feet **X** _____ Length in feet **=** _____ Total square feet

2. Multiply the total square footage of the project by square footage of the stone you chose.

_____ Sq. ft. **X** _____ Sq. ft. per stone **=** _____ Total stones needed
 (calculated above) (calculated on price labels)

RETAINING WALL PROJECT

How many stones do I buy? 4" x 12" Wall Block

Stones required per square foot of wall surface area.

of Courses Wall Height 5' 10' 15' 20' 25'

# of Courses	Wall Height	5'	10'	15'	20'	25'
1	4"	5	10	15	20	25
2	8"	10	20	30	40	50
3	12"	15	30	45	60	75
4	16"	20	40	60	80	100
5	20"	25	50	75	100	125
6	24"	30	60	90	120	150

How many stones do I buy? 6" x 16" Wall Block

Stones required per square foot of wall surface area.

of Courses Wall Height 5' 10' 15' 20' 25'

# of Courses	Wall Height	5'	10'	15'	20'	25'
